

Rest assured that your data is protected and backed up, and that your new “IT department” is just a phone call away!

Professional Technologies has been serving the Missouri area since 2004, providing comprehensive IT Services. From technical helpdesk and individual computer support, to 24/7 monitoring and consulting, Professional Technologies specializes in knowing dealers and their computer IT needs.

Professional Technologies' experienced staff will monitor a dealer's Network to prevent and repair common issues, and apply updates.

Professional Technologies will make sure the Network is Secure and that Data is backed up on a regular basis. They can also help store a backup offsite to keep data safe. And further, they test the backup using "Watch360", which will give dealers peace of mind.

And, employees will no longer have to fight with workstation issues. . .just send in a request and it will get handled. . . quickly.

They provide:

- Managed Services - sleep well knowing the network is in good hands
- Hosting Services - services, applications and email
- Business continuance in event of a disaster
- LIVE human support!

Call Julie Sells to learn more about how Professional Technologies can handle your IT needs!
