

High-Quality, Low-Maintenance Car Washes. . .great for your CSI

Established in 1972, D&S provides the professional car wash industry with innovative, quality products designed with simplicity and built to perform. Today, D&S is recognized as one of the industry's leading car wash equipment manufacturers.

D&S has a long history of innovation in the industry and continues today with the state of the art IQ wash platform that includes both the IQ Soft-Touch and IQ Touch-Free versions which utilize the industry leading **3D modeling** to develop a **profile** of the vehicle. D&S is a true car wash equipment manufacturer located in the Midwest, operating a custom metal fabrication and assembly plant, in **High Ridge, MO**. As a full line supplier, D&S can meet all your equipment needs regarding car care, from vacuums, water treatment to hand bay hardware.

In addition, through D&S' subsidiary **DS Financial Services**, we are able to provide three dealership options:

Equipment Lease: freight, installation, service, sales tax and chemicals all included for 3-5 years with no money down.

Equipment purchase with service maintenance contract.

Equipment Purchase.

You will find D&S reputation and experience in the industry unmatched for quality and reliability.

All products are constructed of stainless steel or aluminum and built with simplicity (easy to install and maintain). Through the nationwide distributor network, D&S goal is to help every car wash be a successful operation.
