

Paycor

Easy to Use Software That
Saves Time

Paycor's payroll software is an easy-to-use tool that saves time. They have spent nearly 30 years perfecting payroll, and their solution consistently receives top marks from 3rd party evaluators.

Unified Platform

With one single source of truth for all employee data, business managers never have to switch platforms, log-in to multiple systems, re-key information or open multiple spreadsheets again.

Paycor modernizes the way of managing people from recruiting and onboarding to benefits and learning.

Intuitive Payroll

Paycor's platform provides flexibility and efficiency that no other solution can offer. From adding unlimited earnings and deductions codes, to creating your own cycle of pay runs, adding unlimited columns and calculating gross to net instantly, businesses never have to contact support or request permission again.

Tax Compliance

Paycor's experts can assist with complicated areas, like payroll tax compliance and workers' compensation so the business can focus on paying people.

Local Taxes

Local taxes are calculated based on where an employee lives and works, and **Paycor** can handle reciprocal agreements between jurisdictions ensuring employees are taxed correctly.

Real-Time Gross to Net Payroll Calculations

If pay rates are changed or deductions added during a pay-run, **Paycor's** solution will calculate and display it immediately in the payroll.

General Ledger

Leverage **Paycor's** general ledger electronic data integration service to connect a dealer's existing GL to Paycor's payroll solution.

Cash Requirements Calculations

View a summary of total debits, check payments and outstanding liabilities by company or employee before processing payroll.

OnDemand Pay

Give employees the ultimate pay flexibility with advance pay, every-day pay, tip access and paycard options.
