

# Have peace of mind with quality **BackGround Checks**...before you hire a potential employee

**Every background check is different because everybody's background is different.**

- Screen Assist offers the necessary tools to find out where a person has lived, so you know where to perform criminal background checks.
- Screen Assist obtains background check data directly from the source. In Missouri, we offer the Missouri State Highway Patrol (MSHP) criminal record check. Since the MSHP is the central repository for all criminal histories in the State of Missouri the information provided is the most up-to-date information available. Screen Assist offers Statewide Repository searches from most States.
- Screen Assist offers many other types of background checks. Federal Criminal, Sex Offender, Driver Records, Professional License Verification and Terrorist Watch List are just to name a few.
- **The process is very simple.** Just login to our secure Website and enter the necessary search criteria, select the types of background checks you need and submit the request.
- Screen Assist can work with you to customize the background screening packages necessary to meet your needs.
- We also offer an Applicant Tracking System that can make the whole process seamless.
- **Compliance is important** and Screen Assist's process follows all the latest industry standards.
