

Better lot security equals peace of mind.

Acadian Total Security, an employee-owned security company, specializes in comprehensive security solutions, including video surveillance monitoring, access control, intrusion detection, and fire alarm monitoring.

Leveraging extensive industry experience and expertise, **Acadian** provides robust solutions tailored to the automotive sector. Their focus lies in assisting dealers with loss and theft prevention strategies, ensuring the **security** of their lots, safeguarding inventory, and optimizing operational efficiency, allowing dealers to concentrate on core business functions.

Specializing in mitigating false claims, including slip and fall incidents, Workman's Comp claims, lot damage, vandalism, and Service Drive incidents, they employ innovative cameras and analytics. **Acadian's award-winning tactical monitoring center personnel** ensure outstanding loss prevention benefits for their automotive clientele.

Additionally, **Acadian** provides guidance on physical lot security, recommending measures such as proper lighting and physical barriers. Their commitment extends further by offering information on vehicles more susceptible to theft or catalytic converter theft.

Acadian Total Security stands as a comprehensive security solution provider, offering world-class services to help their clients rest easy at night, confident in the knowledge that their staff, customers, and assets are being vigilantly protected.
