

# MARCO

## Business IT Services

Whether you're starting from scratch or you've already invested in IT personnel and resources, **Marco** can help! A secure, scalable and future-proof infrastructure—with expert assistance—can ensure your business technology evolves alongside your business.

### WHY MARCO?

Today's technology is designed to be interconnected, giving you more capabilities than ever before. But when your tech isn't functioning as it should, what looks like a connectivity issue could very well be a software or security issue. With **Marco**, no matter what's causing the problem, one phone call can resolve it. **Marco's** US-based staff of over 650 certified systems engineers and technical representatives can safeguard your data and keep your technology up and running, so your business can truly shine. **Marco's** Simple Solutions and Custom Approach, whether you need fully managed IT, co-managed IT or help with a specific project, **Marco** can provide it, all while providing you cost savings.

**Marco's** award-winning staff of certified systems engineers and technical representatives can supply all of the expertise and the infrastructure you need to keep your technology up and running, and your data safe

Have you already invested in IT staff and resources? Well done! Co-managed IT lets you pick and choose which responsibilities you'd like to stay in-house. Your staff can play to their strengths, and **Marco** will take on the rest.

Just need help from an expert now and then? **Marco's** experts can assist with design and implementation for networks, storage, hardware upgrades, cloud services and more to tackle specific project
