# Add a **Search Button** to your file room

Scan123™

What is **Scan123?**

Scan123 is the secure document management solution that enables all departments in your dealership to instantly find important files with the click of a button. By scanning paper files into the cloud, you can secure your business-critical documents, free up space in your dealership, and save both time and money.

Have a huge backlog of **paper documents**?

Scan 8x faster with VelocityFile

VelocityFile is a simple, powerful upgrade for Scan123 that lets you scan documents up to 8x faster than traditional scanning. VelocityFile also names and files documents with no data entry required, and works with your DMS to automatically assign key information like RO#, VIN and customer name.

Our **Guarantee**

Peace of mind

Scan123 has top-notch security and is DMS-independent which means your documents will always be safe and accessible.

No hostage data, ever

At your request we will provide a full backup of all your stored files.

60-day money-back guarantee

If for any reason you are not happy with Scan123, we will give you a full refund, no questions asked.

Document Management
Built for
Dealerships

Why
Scan123?

Retrieve documents instantly
Search by RO#, stock#, deal#, VIN, customer name, and much more.

Simplify your filing system
Combine paper and digital files from every department into a single location.

Secure customer information
Your encrypted documents are protected against theft, hacking, flood, fire, and loss.

Connect to your DMS
Scan123 works with all major DMS providers to automatically label your files and eliminate data entry.

Eliminate your file room
Reclaim the space used for filing cabinets and banker boxes to store more parts or add office space.

Streamline dealership audits
Be prepared for an audit with all your documents ready to go.

> "I honestly don't know how we operated before Scan123. We generate about 10,000 documents per month. Before Scan123 we stored them all in filing cabinets which was a total nightmare. Now we can scan every document front and back, with a perfect image, in just a few seconds. Each scan is a legal copy complete with all the necessary notes and signatures. The best part is we can search for any document instantly.
